SUMMARY

PEC Core Refresher ensures up-to-date instruction in the safety topics most commonly required by operators in pre-qualification surveys and training matrices. Students review PEC Core Compliance topics and refresh their understanding of the terms and practices necessary for a safe work environment. This course reinforces a workers knowledge of safety and the commitment to help prevent accidents, work safely, and achieve compliance with OSHA regulations. Students will be reminded of hazards they may encounter in the workplace, and some best practices to mitigate those hazards. Students will also review their rights under OSHA and how those rights apply to the workplace. This annual refresher course will keep worker knowledge up to date and provides all refresher instruction as required by OSHA for topics covered in PEC Core Compliance.

PREREQUISITES

Previous completion of PEC Core Compliance is required for this course.

CERTIFICATIONS

Upon successful completion of the course, students receive their PEC ID card. The back of the card reflects PEC courses successfully completed by the student. Employers may also verify course completion by visiting www.peccard.com.

COURSE EVALUATION

Students will receive written exams to verify their competency in PEC Core Refresher topics.
