SUMMARY

Accredited by SafeLandUSA and by SafeGulf, PEC Core Compliance is a high-intensity three day course designed to engage students and build knowledge, security and personal recognition of safety practices and prevention of on-the-job injury and illness. Students will learn to recognize, prevent, avoid, and reduce safety and health hazards in the workplace. PEC Core Compliance provides full or awareness level classroom instruction on more than 40 health, safety, or environmental topics. The PEC Core Compliance course delivers instruction and then tests student understanding in the safety topics most commonly required by oil and gas operators in their pre-qualification surveys and training matrices.

CERTIFICATIONS

Upon successful completion of the course, students receive their PEC ID card. The back of the card reflects PEC courses successfully completed by the student. Employers may also verify course completion by visiting www.peccard.com.

COURSE EVALUATION

Students receive written exams to verify competency in PEC Core Compliance topics.

COURSE COMPONENTS
